

Dear Sprocket Central Pty Ltd,

Thank you for providing with three datasets of your company 'Customer Demographic', 'Customer Addresses', 'Transactions' data for the past 3 months. Upon analysing your data, I found certain information missing which I have listed below.

For 'Customer Demographic' data,

1. Age of the customers is missing.
2. Two people seem to be deceased.
3. In 'Gender' column, to denote male or female, different words like 'M', 'F', 'male', 'Male', 'female' were given.
4. A column named 'Default' is present, which does not provide any relevant information about the demographic of customers.
5. Blanks in 'Job Title'.

For 'Transactions' data,

1. Profit of each transaction is not given.
2. Transaction month is not given, and it must be calculated from Transaction date.

For 'Customer Address',
'State' is inconsistent.

Thank You.
